THE 1971

CADILLAC *Sixty* SPECIAL

There were more than 100,000 1971 Cadillac Sixties very different from any other before (and for 1972)

Of course, there were also the ones that didn't make it. But the 1971 Cadillac Sixty Special was the one that did. It was the one that was built to last. It was the one that was built to be a Cadillac. It was the one that was built to be a Cadillac.

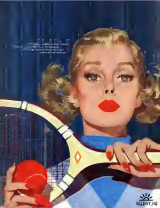

The annual "Ward's" award for the best car in the world was given to the 1971 Cadillac Sixty Special. It was the one that was built to last. It was the one that was built to be a Cadillac. It was the one that was built to be a Cadillac.

There is a lot of talk about the 1971 Cadillac Sixty Special. But the 1971 Cadillac Sixty Special was the one that was built to last. It was the one that was built to be a Cadillac. It was the one that was built to be a Cadillac.

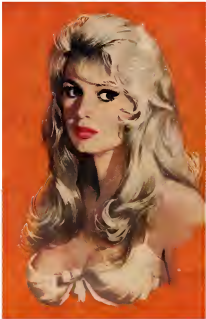

There is a lot of talk about the 1971 Cadillac Sixty Special. But the 1971 Cadillac Sixty Special was the one that was built to last. It was the one that was built to be a Cadillac. It was the one that was built to be a Cadillac.

It's not just a story of beauty
and grace, it's a story of
the heart and the soul.
The story of a woman who
has lived a life of love and
faith.

J. L. Smith
